PROFESSIONAL EXPERIENCE

Web Application Developer Intern Jul 2026 – Present

PT Kereta Api Indonesia (Persero) – DAOP 6 Yogyakarta

- Develop and maintain internal web applications that support daily operational and business processes across the regional office.
- Build responsive frontend interfaces and integrate them with backend services and databases.
- Collaborate with supervisors and cross-functional teams to analyze requirements and implement system enhancements.
- Perform debugging, testing, and performance optimization to improve application reliability and user experience.
- Participate in code reviews, technical discussions, and software documentation following development best practices.

Full Stack Developer Intern Jun 2026 – Jul 2026

Elsotel Purwokerto

- Developed and maintained the company's official hotel website using React, TypeScript, Tailwind CSS, and Supabase.
- Implemented customer-facing modules including room reservations, restaurant, promotions, gallery, and user dashboard.
- Built administrative features for managing rooms, bookings, website content, and hotel operations.
- Optimized application performance, resolved bugs, and collaborated with stakeholders to deliver new features throughout the development process.

Practicum Assistant – Computer Networks Feb 2026 – Jun 2026

Telkom University Purwokerto

- Assisted and guided over 50 students in Computer Networks practicum sessions, covering networking concepts, practical configurations, and troubleshooting.
- Coordinated practicum preparation and student assistance to ensure smooth laboratory activities.
- Collaborated with instructors in evaluation activities and provided technical support throughout the sessions.

PROJECTS

TelyuBiz Marketplace – Computing Project Mar 2026 – Jun 2026

Telkom University – System Analyst, Documentation & QA Support

- Conducted requirement and business process analysis to define system requirements and core functionalities for mobile and web-based marketplace applications.
- Prepared full project documentation: project proposal, SRS, SDD, UAT, user manuals, and testing documentation.
- Supported quality assurance through manual testing, feature reviews, issue tracking, and test documentation.

- Collaborated with the team to ensure deliverables aligned with user requirements and project objectives.

CukurMen Website – Academic Project

Sep 2025 – Dec 2025

Telkom University – Project Manager

- Led a team of four in developing a web-based platform for CukurMen Purwokerto, a local barbershop case study.
- Coordinated with external stakeholders and facilitated requirement discussions to align project objectives with user needs.
- Managed task allocation, team communication, and project progress throughout the software development lifecycle.
- Maintained project documentation and ensured timely completion of project milestones.

ADDITIONAL EXPERIENCE

Event Marketing Staff (Freelance)

Jul 2026

Heybee Visual – Purwokerto

- Promoted photography services at event booths through brochures and direct engagement with visitors.
- Explained service details to attendees and supported booth setup and on-site event activities.

Event Crew / Usher

Jan 2019 – Aug 2026

Pita Merah Event Organizer – Purwokerto

- Handled guest reception, guest book management, and gift reception for weddings, engagements, store openings, and exhibitions.
- Assisted with guest flow, event setup, and on-site coordination with team members to ensure smooth event execution.

EDUCATION

Bachelor's Degree in Informatics Engineering

Sep 2023 – Present

Telkom University Purwokerto

- Current GPA: 3.87 / 4.00 • Expected Graduation: 2027

CERTIFICATIONS

Microsoft Azure AI Fundamentals | AWS Academy Cloud Foundations | IBM Big Data Foundations | SQL and Relational Databases 101 | NoSQL and DBaaS 101

ADDITIONAL INFORMATION

Languages: Indonesian (Native); English (Intermediate – proficient in reading technical documentation, conversational speaking)
