| • Issue Tracking | • Testing Documentation | • GitHub |

PROFESSIONAL EXPERIENCE

Practicum Assistant – Computer Networks	Feb 2026 – June 2026
--	-----------------------------

Telkom University Purwokerto

- Assisted and guided over 50 students in Computer Networks practicum sessions, providing support in networking concepts, practical configurations, and troubleshooting processes.
- Coordinated practicum preparation and student assistance to ensure smooth and effective laboratory activities.
- Collaborated with instructors in evaluation activities and delivered technical support and communication assistance throughout the practicum sessions.

Event Crew / Usher	Nov 2020 – Apr 2026
---------------------------	----------------------------

Pita Merah Wedding Organizer

- Supported event operations for weddings and engagement events to ensure smooth event execution.
- Assisted in guest handling, event flow coordination, and on-site communication with clients and attendees.
- Collaborated with team members to maintain service quality and ensure successful event operations.

Event Marketing Staff	Jul 2025
------------------------------	-----------------

Heybee Visual

- Supported marketing and customer engagement activities for a photography service brand.
- Assisted in service promotion, customer communication, and event-related operations.
- Collaborated with team members to support customer engagement and enhance service experiences.

PROJECTS

TelyuBiz Marketplace – Computing Project

Mar 2026 – Jun 2026

Telkom University – System Analyst, Documentation & QA Support

- Conducted requirement analysis and business process analysis to define system requirements and core functionalities for mobile and web-based marketplace applications.
- Prepared comprehensive project documentation, including project proposal, Software Requirements Specification (SRS), Software Design Document (SDD), User Acceptance Testing (UAT), and testing documentation.
- Created user manuals and manual books to support feature understanding and system usage.
- Supported quality assurance activities through manual testing, feature reviews, issue tracking, and test documentation.
- Collaborated with team members to ensure project deliverables aligned with user requirements and project objectives.
- Supported project coordination and communication activities throughout the software development lifecycle.

CukurMen Website – Academic Project

Sep 2025 – Dec 2025

Telkom University – Project Manager

- Led a team of four members in developing a web-based platform for CukurMen Purwokerto, a local barbershop case study.
- Coordinated with external stakeholders and facilitated requirement discussions to ensure project objectives aligned with user needs.
- Managed task allocation, team communication, and project progress throughout the software development lifecycle.
- Monitored project deliverables and maintained project documentation to support effective project execution.
- Facilitated collaboration among team members and ensured timely completion of project milestones.

EDUCATION

Bachelor’s Degree in Informatics Engineering

Sep 2023 – Present

Telkom University Purwokerto

- Current GPA: 3.87/4.00
- Expected Graduation: 2027

CERTIFICATIONS
